ABOUT ME

Front-End Developer with 2 years of experience in designing and developing fintech platforms, enterprise applications and service based e-commerce systems using React.js, Next.js, and TypeScript. Expert in secure API integrations, micro-frontend architecture, real-time data handling, responsive design, and performance optimization. Passionate about writing clean, maintainable code and staying at the forefront of the latest web technologies.

WORK EXPERIENCE

🏢 MOBILE FINANCE TECHNOLOGY PVT. LTD (FINTECH) (DECEMBER 2025 - PRESENT)

Address: Old Baneshwor, Kathmandu

Mid Level Frontend Developer

- Developed secure fintech dashboards for real-time financial transactions and payment processing systems.
- Contributed to internet service provider portals with billing, subscription management, and customer service interfaces.
- Built internet banking systems with account management, fund transfers, transaction history, and secure login portals.
- Integrated RESTful APIs and WebSocket connections for live market data and KYC verification workflows.
- Optimized component performance with memoization, lazy loading, and code splitting for high-frequency data updates.
- Collaborated with compliance teams to ensure WCAG accessibility and data security for financial applications.

🏢 CODE HIMALAYA PVT. LTD. (DEC 2025 - NOVEMBER 2025)

Address: Kupandol, Lalitpur

Frontend Developer

- Built a modern, product-based e-commerce web application using Next.js that ensures a seamless shopping experience with optimized performance, server-side rendering (SSR), and interactive UI components.
- Developed enterprise task management platforms similar to Jira, using React.js, TypeScript, and micro-frontend architecture for scalable team collaboration and project tracking.
- Developed cargo tracking systems for top hotels, maintaining complete incoming/outgoing records and shipment history with real-time inventory updates.
- Created core authentication modules with role-based access control and shared layouts across ERP platforms.
- Designed procurement systems for vendor and tender management with real-time updates and API integrations.
- Created product-based staff management systems for hotels with scheduling, shift tracking, and employee dashboards.

- Built and optimized reusable UI components, improving development efficiency.
- Integrated RESTful APIs and GraphQL for efficient data fetching and state management.

DETECH SOLUTION PVT. LTD. (JULY 2024 – DECEMBER 2024)

Address: Kathmandu, Nepal

React Developer Intern

- Developed responsive web applications using React.js and Next.js with a component-driven architecture.
- Integrated RESTful APIs and implemented efficient state management solutions.
- Built reusable UI components to improve consistency and maintainability across projects.
- Collaborated with the development team to deliver high-performance, user-friendly interfaces.
- Participated in application maintenance, bug fixing, testing, and frontend optimization initiatives.
- Ensured cross-browser compatibility and responsive design standards across web applications.

MY SKILLS

Frontend

HTML | CSS | JavaScript | TypeScript | React.js | Zustand | Gatsby | Next.js | SASS | Tailwind CSS | Bootstrap | Responsive Design | REST APIs | GraphQL | Shad cn

Dev Tools & Deployment

Git | GitHub | GitLab | GitLab CI/CD | Postman | Vercel | Netlify | Render

Others

SEO Basics | Agile Workflow | Project Management | Team Collaboration

KEY PROJECTS

Mo Finance (Fintech Platform):

A fintech platform that provides mobile banking, digital payments, and financial services solutions with seamless integrations, secure transactions, and a user-friendly interface for financial institutions and end users.

Link: [Mofin](#)

SastoLoan (Loan Marketplace Platform):

A digital loan marketplace platform that connects users with multiple financial institutions, enabling easy comparison and access to various loan products with a streamlined and transparent application process.

Link: <https://www.sastoloan.com/>

Therapy With Prashanna (Online Therapy & Course Platform):

A mental wellness platform that offers therapy sessions and structured relationship-focused courses, helping users develop self-awareness, emotional understanding, and practical relationship skills through guided learning and interactive content.

Link: <https://www.therapywithprashanna.com/>

Job Portal Management System (CRM):

A role-based job portal management platform that streamlines recruitment workflows for Admin, Agency, and Candidate users, enabling secure authentication, job and announcement management, candidate applications, interview scheduling, and profile management through a responsive and scalable web application.

Link: [Job Portal](#)

Procurement Service System Application:

A procurement management platform that streamlines handling of tenders, vendors, and products within an interactive and efficient workflow.

Link: <https://quantumtechwork.com/>

CIE Past Papers

A comprehensive website providing past exam papers and study resources for Cambridge International Examinations.

Link: <https://www.ciepastpapers.com/>

E-Commerce Web Application (SAAS)

A fully dynamic SaaS-based ecommerce platform, engineered to be highly configurable and adaptable to each client's unique business requirements.

ERP-TMS (Enterprise Resource Planning - Task Management System):

A micro-frontend-based task management system designed to handle task assignments, progress tracking, and workflow organization across teams and projects.

ACADEMIC QUALIFICATIONS

BSc. (Hons) Computing

Softwarica College of IT and E-Commerce (Affiliated with Coventry University)

Maitri Marg, Dillibazar, Kathmandu

April 2021 – May 2024
